## Invitation to SMT 2009 Hall 7, Stand 7-446

April 2009

### Welcome at kolb.

We herewith invite you to meet us on our stand during the SMT 2008 from may 5 - 7, 2009.

Form you own opinion about our competence as supplier of complex solutions consisting of Engineering, Cleaning Chemistry, Technology Development, Process Design & Service and consult our attendant experts on the subjects

- Process optimisation by cleaning
- Cost reduction by cleaning
- Increased returns by cleaning

As innovation we showcase the second generation of the PCB cleaning system PS B600 which is laid out now also for the cleaning of climate reliable circuit assemblies.

We look forward to meeting you in Nuremberg.

**Your kolb team**

### Your Listen to what you like Coupon

Just fill out (or attach your business card), hand it in at the stand and take part in our ipod lucky draw.
