### **REACH Product Information / Non-presence of SVHC**

To Whom It May Concern,

The intent of this document is to clarify how products (including packaging materials) manufactured by AIM are affected by the REACH 'Candidate List'. As supplied, there are no substances to be released from these products as defined by article 7(1)<sup>1</sup> under normal or reasonably foreseeable conditions of use.

AIM confirms that, to our current knowledge, the products (including packaging materials) manufactured by AIM do not contain any of the 46 substances listed on the Candidate list<sup>2</sup> of Substances of Very High Concern (SVHC), published on the ECHA website on December 15<sup>th</sup> 2010, in an individual concentration of  $\geq 0.1\%$  by weight.

We are committed to comply in every aspect to the requirements of REACH and relevant amendments. At present, we do not expect any anticipated SVHC to be in our products that would require reporting to the supply chain.

We anticipate this statement satisfies your concerns regarding our products and the requirements of your company, if not, please contact us and we will do our best to provide additional information.

A handwritten signature in black ink, appearing to read 'Mathieu Germain'. The signature is fluid and cursive, written over a white background.

Mathieu Germain  
Environmental Director
